### Let's Start!

#### The Charity Event

#### Learning Outcome

Exchange information about people's interests and backgrounds using a wider range of language.

#### Ask your partner:

- Have you ever been interviewed for television, radio, or a newspaper? What questions were you asked?
- What charitable organizations would you consider supporting?

#### Can Do Statements

- I can explain facts and my point of view on work-related topics.
- I can give a supported argument about work-related processes that would benefit me and my employer.
- I can put forth and react to others' ideas during a business discussion.

## Let's Explore!

The **fourth estate**\*.

\* The "fourth estate" refers to the media (television, newspapers, etc.)

*Instructions: Read the text aloud.*

- Rocco:** Thank you all for listening. We shall proceed with our event. I am inviting Mr. Farmani for a Q&A with the press. Priority will be given to those who signed up in advance. Please remain seated.
- Reporter:** Mr. Farmani, why did you decide to rebrand?
- Farmani:** In the light of the scandal and issues, we've decided that certain things must be changed. A new identity will be created, a new name might be selected and a focus on corporate social responsibility should be adopted.
- Reporter:** Have you thought about the purpose of the new business?
- Farmani:** With Holly's, we've experienced growth in our revenue and customer base. We have attracted attention and we've even won a wide range of awards. But none of that matters. Attention should be given to our community. A sense of responsibility towards those who help us will be emphasized. We've agreed to contribute to educational and social programs in our new venture. That's our purpose.
- Reporter:** How do you want people consumers and the industry to feel when they see your new brand?
- Farmani:** Not much can be said about this right now. However, we have identified parts of our brand that have failed to connect to our target market. A system will be established to support what our brand promises. The cake must taste as good as it looks!
- Reporter:** One last question, what's the idea behind incorporating social responsibility?
- Farmani:** This shouldn't be answered now, but all I can say is that encouraging a positive impact on our community will be our top priority.

## Learning Points

### Passive of Modals

The passive voice is commonly used in English. We use the passive when the 'doer' (agent) of the action is not so important. We are not interested in knowing who did the action. Our attention is on the object. Here's some more information about the passive of modal verbs.

1. Future form: subject + will + be + past participle

*A new image will be created.*

*A positive impact will be our main goal.*

*A sense of social responsibility will be emphasized.*

2. Modals: can / could + be + past participle

We use these forms to talk about present and past possibility.

*Honestly, not much can be said right now.*

3. Modals: must / should / might + be + past participle

### Present Perfect

You use the Present Perfect tense to talk about a past action or an action that began in the past that is connected to the present in some way.

You can use the Present Perfect tense to talk about experience.

This is how you form the Present Perfect: subject + have + past participle

When you use the Present Perfect tense, you think about the past and present together. There is some connection between what happened in the past and now.

### Examples:

- *We've decided that many things had to be changed.*
- *We've experienced a lot of growth over the years.*
- *We have identified areas that need to be worked on.*
